> Please do send me the powerpoint, as that will be what I will use to prepare my talking points and walk through the briefing. Can you send me what you have today? If you have further slides that you'll develop and send later, that's fine - but I have a tight early week next week and need to be able to use today to get my general head around the presentation. We can refine or add slides next week as appropriate.

> Hi Mary - On Monday you had provided direction on preparing a draft Powerpoint on FL 404 assumption for next week's David Ross briefing. We're in the process of updating our most-recent Powerpoint, but I wanted to pass along something I heard this morning from Gale Bonnanno (while discussing a NRDA issue) about David Ross' preference for briefings. Gale said she understands he prefers one-pagers with background materials which could include a powerpoint document. She also encouraged me to call Ann Campbell for any additional needed clarity on what he prefers. If it's helpful I can call Ann to verify Mr. Ross' preference. I'm also happy to continue with the plan of updating the Powerpoint to use as the basis for the presentation. Thanks. Tom

> And she and we appear to be on the same page for next Thursday: she will focus on FL 404 assumption by framing the big strategic questions regarding Corps and ESA, as well as how to approach the State in light of our understanding of their legislative proposal. She will briefly mention the Region's intent to approve the FL 303d list and answer any questions Dave has. Mary will take the lead for both, including materials (Note for Mary: feel free to work with OWOW staff as needed prior to mid next week so that we are ready to move the materials to OW NLT 300p Wednesday deadline).
>
> We'll continue to frame the big strategic questions for CWA 404 assumption and FACA next steps for the Tuesday briefing. Thanks Kathy for working with OGC and the Regions on material for the briefing itself and background/appendix/read-ahead.
>
> Note Mary/Jim/Tom- just learned that Dave may probe why EPA is "doing the State's work" on the list where we have added waters, corrected errors, etc. We need to be prepared.
